SERIE SS-FQ

Gauze Slitting and Re-winding Machine

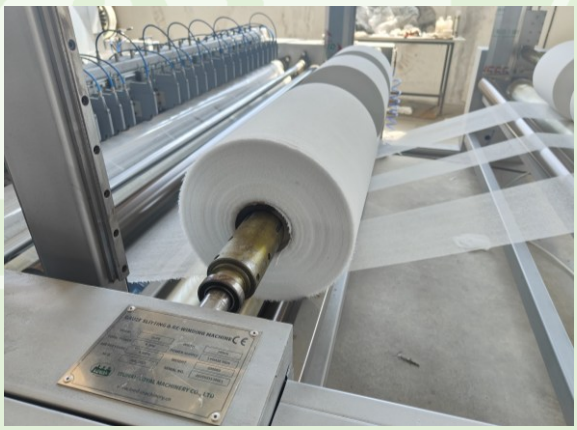
TECHNICAL SPECIFICATIONS

The raw material holder has regulating function which can adjust the position of gauze jumbo roll position within range of ±2.5cm.

After gauze jumbo roll loading on machine, user can easily adjust the position without to lift gauze jumbo roll (very heavy).

Hauling and pushing reasonable combined together, maximum reduce the deformation when gauze been drive and movement over.



During winding, the tension control device works to make it suitable to cut raw gauze with too many joints and unbalanced tension.

SERIE SS-FQ

Gauze Slitting and Re-winding Machine

Frequency converter controls the speed, make constant tension and linear velocity, precise speed regulating, stable running, and accurate counting.

Technical Parameter	
Jumbo roll max. diameter	87cm
Max. working width	90-240cm（Accept customize）
Cutting speed	0-180m/min
Hauling motor power	4 KW
Pushing motor power	1.1 KW
Frequency converter	3.7KW; 5.5KW
