Cotton Ball Making Machine

Rubbing various diameters of cotton slivers to fixed weight and diameter of cotton balls.

Automatically feeding, ball shape rubbing, counting and output.

Design as linear rubbing lanes, different from the traditional arced lanes.

The rubbing process been lengthened by the linear rubbing lane, which will ensure the cotton balls are in good shape, perfect roundness and difficult to loose.

Cotton Ball Making Machine

TECHNICAL SPECIFICATIONS

Automatic counting system, reduce labor work.

PLC control plus step motor drive, ensure uniformity of the in-feed gram weight, convenient and accurate weight regulations. It also works to comb and stretch the cotton slivers.

For example, from a 5g/m cotton sliver, cut down 5cm, the rubbing line will comb and stretch it to 9~10cm, then rubbing it to a ball.

Cotton Ball Making Machine

Multi rubbing lanes increase the production capacity.

Technical Parameter

Capacity	300-400balls/min
Cotton ball diameter	1-5cm (Accept customize)
Cotton ball weight	0.2-3.5g/ball (Accept customize)
